

SCALING UP SUSTAINABLE INNOVATION: ACTORS, INSTITUTIONS AND GEOGRAPHIES

23 MAY 2018, 10:00 - 15.30

**GOTTMAN A, SCHOOL OF GEOGRAPHY AND ENVIRONMENT,
SOUTH PARKS ROAD**

How can we conceptualize upscaling of sustainable innovation? How can different technologies best be integrated with each other as they diffuse? Can we accelerate diffusion and ensure it really contributes to sustainability? In this workshop we bring together recent insights on these questions from organizational studies, sustainability transition studies, and geography.
